Universal Meta Data Models
Universal Meta Data Models

David Marco
Michael Jennings
I thank Melinda for being the best partner a man could ask for and
I thank God for blessing me in every way a person can be.

David Marco

With determination and focus, you can achieve anything; with uncertainty and doubt, you will never begin.

Michael Jennings

About the Authors xv
Introduction xix

Part One Presenting the Managed Meta Data Environment 1

Chapter 1 Overview of the Managed Meta Data Environment 3

Evolution of the Managed Meta Data Environment 3
Typical Managed Meta Data Environment Objectives 5
  Increase Revenue and/or Decrease Costs 5
  Promote Public Health 7
  Adhere to Regulations 8
  Improve National Security 8
  Provide Education 9
  Ensure Public Safety 9

Facing Corporate Challenges with an MME 9
  Provide IT Portfolio Management 11
  Reduce IT Redundancy 13
    Redundant Applications, Processes, and Data 15
    Needless IT Rework 16
    Redundant Hardware and Software 16
  Prevent IT Applications Failure 17
  Reduce IT Expenditures 18
  Enable Knowledge Management 18
  Adhere to Regulatory Requirements 18
  Enable Enterprise Applications 19

Summary 22
Chapter 2 The Managed Meta Data Environment Architecture 23
MME Overview 24
   Meta Data Sourcing Layer 25
      Software Tools 29
      End Users 30
      Documents and Spreadsheets 31
      Messaging and Transactions 33
      Applications 34
      Web Sites and E-Commerce 34
      Third Parties 34
Meta Data Integration Layer 35
Meta Data Repository 36
Meta Data Management Layer 37
   Archiving 38
   Backup 38
   Database Modifications 39
   Database Tuning 39
   Environment Management 39
   Job Scheduling 40
   Maintainence of Load Statistics 40
   Purging 40
   Maintenance of Query Statistics 40
   Query and Report Generation 41
   Recovery 41
   Security Processes 41
   Source Mapping and Movement 42
   User Interface Management 42
   Versioning 42
Meta Data Marts 43
Meta Data Delivery Layer 44
   Applications 44
   Data Warehouses and Data Marts 45

Summary

Part Two Universal Meta Models for the Meta Data Repository Environment

Chapter 4 Universal Meta Model for Enterprise Systems
- Purpose of the Enterprise Systems Meta Model
- Enterprise Systems Model Assumptions
- Enterprise Systems Subject Areas
  - Data Package
  - Data Relationships to Structure
  - Data Movement and Transformation
  - Expression Transformation
  - Transformation Operational History
  - Data Profiling
- Reports from the Enterprise Systems Meta Model
  - Data Definition by System by Environment Report
  - Data Structure Hierarchy Report
  - System Data Quality Assessment Report
  - Data Profiling Exceptions Report
  - Data Impact Analysis Report
  - Data Lineage Analysis Report
- Summary

Chapter 5 Universal Meta Model for XML, Messaging, and Business Transactions
- Purpose of the XML Meta Models
- Model Assumptions
- Introduction to XML
  - XML Schema Example
  - XML Categories
Chapter 8  The Complete Universal Meta Model  367
A Complete High-Level Meta Model  368
Implementation Considerations  373
   Levels of Data Models  374
   Database Unique IDs  374
   Code Tables  375
   Translating LDM to PDM  376
      Many-to-many Relationships  376
      Entity Subtyping  377
      Meta-Level Information Loss  378
      Multiple Inheritance  380
   Design Issues Revisited  381
Data Quality Meta Data Mart  382
OLAP Implementation of the Meta Data Mart  384
Summary  391
Conclusions  391

Appendix A  Model Diagrams  393

Appendix B  What’s on the CD-ROM?  411
   System Requirements  411
   Using the CD with Windows  412
   What’s on the CD  412
      Author-created Materials  412
      Applications  414
   Troubleshooting  415

Appendix C  Glossary  417

Appendix D  Recommended Reading  437

End-User License Agreement  457
As the authors of this book, both David Marco of EWSolutions and Michael Jennings of Hewitt Associates feel very fortunate to have had a great deal of assistance in this major undertaking. First, we would like to thank Allstate and RBC Financial Group for agreeing to share their world-class MME implementations with the rest of the industry. Second, there are a number of people who deserve many thanks for all of their hard work in making this book a possibility. Following is a list of the people who have helped in making this book a reality:

- Art D’Silva, RBC Financial Group
- John Faulkenberry, EWSolutions
- Linda Hall, Allstate
- Steve Hoberman, Mars Candy
- Min Wichelhaus-Hsu, EWSolutions
- Bill Lewis, EWSolutions
- Bill Loggins, EWSolutions
- Todd Moore, RBC Financial Group
- Mike Reed, EWSolutions
- Piera Riemersma, Covansys
- Mohammad Rifaie, RBC Financial Group
- Doug Stacey, Allstate
- Debbi Walsh, EWSolutions
- Ethan Kayes, Ingrid Nuber, Robin Salk, Hewitt Associates
