Foreword xv
Preface xvii
List of Contributors xix

SECTION 1  Current themes in psychiatric disorders among women 1
Ahmed Okasha and Prabha S. Chandra

1. Psychotic disorders and bipolar affective disorder 9
Rangaswamy Thara and Ramachandran Padmavati
1.1 Psychotic disorders in women 9
1.2 Schizophrenia 10
1.3 Bipolar disorder 17
1.4 Other psychoses 25
1.5 Special issues in women with severe mental illness 27

2. Depression and anxiety among women 37
Nadia Kadri and Khadija Mchichi Alami
2.1 Introduction 37
2.2 Epidemiology 37
2.3 Transcultural aspects of affective disturbances in sub-Saharan Africa 41
2.4 Treatment effects 42
2.5 Sex differences in depression and anxiety disorders: Biological determinants 44
2.6 Sex differences in depression and anxiety disorders: Social factors 46
2.7 Mood and anxiety disorders across lifespan in women 50
2.8 Pregnancy 52
2.9 Motherhood 53
2.10 Conclusion 55
3. Somatisation and dissociation 65
   Santosh K. Chaturvedi and Ravi Philip Rajkumar
   3.1 Introduction 65
   3.2 Somatisation – definitions and concept 66
   3.3 Dissociation – definitions and concept 66
   3.4 The diagnosis and classification of somatoform and dissociative disorders 68
   3.5 The neurobiology of somatisation and dissociation 70
   3.6 Psychosocial factors 74
   3.7 Conversion disorder 81
   3.8 Hypochondriasis 83
   3.9 Dissociative disorders 85
   3.10 Conclusions 88

4. Eating disorders 97
   Sarvath Abbas and Robert L. Palmer
   4.1 Introduction 97
   4.2 Risk factors and pathogenesis 98
   4.3 Distribution 100
   4.4 Presentation, assessment, diagnosis and engagement 100
   4.5 Treatment and management 104
   4.6 Conclusion 111

5. Suicidality in women 117
   Gergő Hadlaczky and Danuta Wasserman
   5.1 Definitions 117
   5.2 Epidemiology 118
   5.3 Suicidality and mental disorders and risk 126
   5.4 Suicide prevention 129

6. Alcohol and substance abuse 139
   Florence Baingana
   6.1 Introduction 139
   6.2 Genetics of alcohol and drug abuse 140
   6.3 Burden of the problem and patterns of drinking 140
   6.4 Alcohol and drug abuse, risky sexual behaviour and HIV vulnerability 141
   6.5 Stigma, women and alcohol and drug abuse 143
   6.6 Health consequences 143
   6.7 Social and economic consequences 143
   6.8 Interventions 144
   6.9 Challenges 145
CONTENTS

6.10 Research 145
6.11 Recommendations 145
6.12 Conclusions 146

7. Psychiatric consequences of trauma in women 149
  Elie G. Karam, Mariana M. Salamoun and Salim El-Sabbagh

7.1 Introduction 149
7.2 What types of traumata are more common among women? 150
7.3 How do women respond to trauma? 154
7.4 What are the trauma related risk factors? 156
7.5 Which mental disorders are related to trauma? 159
7.6 Future directions 164

8. Voices of consumers – women with mental illness share their experiences 169
  Shoba Raja

8.1 ‘Ni Tagìbebu’ – ‘I will change my lifestyle’ 169
8.2 Determined to go against the odds 173
8.3 Brilliant madness – a narrative by a young woman from India who is recovering from mental illness 177
8.4 From illness to purpose and recovery . . . 180
8.5 Conclusions 186

SECTION 2 The interface between reproductive health and psychiatry 189
  Prabha S. Chandra

9. Mental health aspects of pregnancy, childbirth and the postpartum period 197
  Jane Fisher, Meena Cabral de Mello and Takashi Izutsu

9.1 Mental health and maternal mortality 198
9.2 Mental health and antenatal morbidity 200
9.3 Depression in pregnancy 200
9.4 Anxiety in pregnancy 201
9.5 Cultural preferences and mental health in pregnancy 202
9.6 Inflicted violence and mental health in pregnancy 203
9.7 Mental health and postpartum morbidity 203
9.8 Postpartum blues or mild transient mood disturbance 204
9.9 Postpartum psychotic illness 204
9.10 Postpartum depression 205
9.11 Psychosocial risk factors for postpartum depression 206
9.12 Infant factors and maternal mental health 208
9.13 Cultural specificity of postpartum mood disturbance 208
9.14 Maternal mental health, infant development and the mother-infant relationship 210
9.15 Prevention and treatment of maternal mental health problems 212
9.16 Summary 213

10. Psychosocial issues and reproductive health conditions: An interface 227

Veena A. Satyanarayana, Geetha Desai and Prabha S. Chandra

10.1 Introduction 227
10.2 Infertility – a psychosocial appraisal 228
10.3 The psychological implications of hysterectomy 235
10.4 Gynaecological infections 238
10.5 Conclusions 245

11. Menopause and women’s mental health: The need for a multidimensional approach 259

Jill Astbury

11.1 Introduction 259
11.2 Social, cultural and contextual factors 260
11.3 Variation in symptoms and symptom patterns 260
11.4 The research evidence 264
11.5 Is menopause a time of increased risk for women’s mental health? 264
11.6 The relationship between menopause and depression in midlife 264
11.7 The need for a life course perspective 267
11.8 Methodological difficulties 270
11.9 Therapeutic approaches in mid life 271
11.10 Conclusion 275

SECTION 3 Service delivery and ethics 281

Marta B. Rondón

12. Ethics in psychiatric research among women 287

Laura Roberts and Kristen Prentice

12.1 The scientific imperative to include women in psychiatric research 287
12.2 The ethical challenges of psychiatric research 289
12.3 Unique challenges of psychiatric research in women 291
12.4 Summary 295
13. Integrating mental health into women’s health and primary healthcare: The case of Chile 301
   Graciela Rojas and Enrique Jadresic
   13.1 Introduction 301
   13.2 Integrating mental health into primary healthcare 302
   13.3 Integrating mental health into women’s health 307

14. Gender sensitive psychiatric care for children and adolescents 317
   Corina Benjet
   14.1 Mental health services for children and adolescents 317
   14.2 Barriers to service use 319
   14.3 Recommendations for gender sensitive psychiatric care of children and adolescents 319

15. Gender sensitive care for adult women 323
   Marta B. Rondón
   15.1 Introduction 323
   15.2 Gender sensitive and informed mental healthcare: Basic strategies 325
   15.3 Principles of gender sensitive care 327
   15.4 Characteristics of gender sensitive services 328

16. Psychopharmacology 337
   Silvana Sarabia
   16.1 History of psychopharmacology 337
   16.2 Ethics 338
   16.3 Sources and interpretation of data 340
   16.4 Women in clinical trials 341
   16.5 Pharmacodynamics and pharmacokinetics in women 342
   16.6 Psychotropic treatments in women 343
   16.7 Treatment of postpartum disorders 351

SECTION 4 Impact of violence, disasters, migration and work 359
   Unaiza Niaz and Marianne Kastrup

17. Women and disasters 369
   Unaiza Niaz
   17.1 Wars and women’s mental health 370
   17.2 Natural disasters and women 377
18. Intimate partner violence interventions

Krishna Vaddiparti and Deepthi S. Varma

18.1 Mental health consequences of intimate partner violence on women
18.2 Victim focused interventions
18.3 Interventions with batterers of violence
18.4 Other intervention approaches
18.5 Conclusion

19. Migration and mental health in women: Mental health action plan as a tool to increase communication between clinicians and policy makers

Solvig Ekblad

19.1 Definitions: Mental health and health
19.2 Introduction
19.3 Risk factors
19.4 Resilience and coping
19.5 The impact of domestic violence on immigrant women’s mental health
19.6 Access to mental healthcare services
19.7 The ADAPT model (Adaptation and Development after Persecution and Trauma)
19.8 The case of Mrs Aba, her family and the community
19.9 Theory of change logic: Mental health action planning

20. Work and women’s mental health

Saida Douki

20.1 Introduction: A late but growing awareness
20.2 The job burnout
20.3 A higher risk for burnout
20.4 Work and women’s mental health issues
20.5 Management issues
20.6 Conclusion

21. Globalisation and women’s mental health: Cutting edge information

Unaiza Niaz

21.1 Concept and process of globalisation
21.2 Gendered effects of globalisation
21.3 The impact of globalisation and liberalisation on women’s health
21.4 Education and empowerment in women
21.5 The United Nations’ and World Bank’s approach to women’s education
21.6 The global and local intersection of feminism in muslim societies
22. The impact of culture on women’s mental health 463
   Marianne Kastrup and Unaiza Niaz
   22.1 Introduction 463
   22.2 Definitions 464
   22.3 Epidemiological perspectives 466
   22.4 Cultural aspects of stress 466
   22.5 Diagnostic considerations 469
   22.6 Cultural and social practices and their impact on mental health 473
   22.7 Therapeutic issues 477
   22.8 Perspectives 478

23. Female mutilation 485
    Amira Seif Eldin
    23.1 Definition 485
    23.2 Introduction 485
    23.3 Historical background 486
    23.4 Classification 487
    23.5 Epidemiology of FGM 488
    23.6 Physical complications of FGM 489
    23.7 Psychological complications 490
    23.8 Posttraumatic stress disorder and memory problems after FGM 491
    23.9 Obstacles facing changing harmful social convention: Female genital mutilation/cutting 491
    23.10 The basic concept for FGM elimination (The mental map for FGM) 494
    23.11 Recommendations in countries where FGM is commonly practised 495

SECTION 5 Gender, social policy and implications for promoting women’s mental health 499
    Jane Fisher and Helen Herrman
24. Women’s mental health in the context of broad global policies 507
    Takashi Izutsu
    24.1 Introduction 507
    24.2 Definitions of health and the right to health made by the United Nations 508
24.4 Conventions 510
24.5 Other international tools 512
24.6 New aid environment: Sector wide approaches and the poverty reduction strategy paper 513
24.7 Conclusion 514

25. Families of origin as agents determining women’s mental health 517
   Wenhong Cheng
25.1 Introduction 517
25.2 The impact of the family of origin’s perspectives about females on the growth of women 518
25.3 Impact of parenthood on women’s mental health 519
25.4 Families, social change and women’s mental health 521
25.5 Conclusion 522

26. The unpaid workload: Gender discrimination in conceptualisation and its impact on maternal wellbeing 525
   Jane Fisher
26.1 Introduction 525
26.2 Maternal desire 526
26.3 Disenfranchised grief and motherhood 526
26.4 Fantasies of motherhood 527
26.5 Fantasies about the workload 527
26.6 Workload of motherhood 528
26.7 Occupational fatigue as a determinant of maternal mood? 529
26.8 Recognition and valuing of work and occupational satisfaction 531
26.9 Training and education for mothering 532
26.10 Presumptions about the contributions of others to the workload 534
26.11 Collegial relationships 534
26.12 Honouring the work of motherhood in practice and policy 535
26.13 Conclusion 537

27. Foundations of human development: Maternal care in the early years 539
   Linda M. Richter and Tamsen Rochat
27.1 Child development and human culture 539
27.2 Interactions and relationships 541
27.3 Maternal mental health and children’s development 542
27.4 Maternal care 543
27.5 Implications for mental healthcare 544
28. The adverse impact of psychological aggression, coercion and violence in the intimate partner relationship on women’s mental health

Toshiko Kamo

28.1 Introduction
28.2 Prevalence and nature of intimate partner violence
28.3 Impact of intimate partner violence on general health
28.4 Mental health problems among women affected by intimate partner violence
28.5 Intimate partner violence, children and intergenerational patterns of abuse
28.6 Conclusion

Index
