To my wife, Margaret, and daughters, Allison, Katherine, and Mary, for their encouragement, understanding, and support

And

To my parents, Arthur and Alice, for teaching me the importance of dedication and perseverance
# Table of Contents

List of Contributors xv
Preface to the Sixth Edition xix
Preface to the Fifth Edition xxi
Preface to the Fourth Edition xxiii
Acknowledgements xxv
Common Terminologies and Abbreviations xxvii

1. Functional Anatomy of the Equine Musculoskeletal System 3
   ROBERT A. KAINER AND ANNA DEE FAILS
   Anatomic Nomenclature and Usage 3
   Thoracic Limb 3
   Hindlimb 39
   Axial Components 66

2. Conformation and Movement 73
   GARY M. BAXTER, TED S. STASHAK, AND CHERRY HILL
   Conformation 73
   Types and Breeds 73
   Method of Evaluation 74
   Conformation Components and Traits 75
   Movement 95

3. Examination for Lameness 109
   GARY M. BAXTER AND TED S. STASHAK
   Introduction 109
   History, Visual Exam, Palpation, and Manipulation 109
   Classification of Lameness 110
   Signalment and Use 112
   History (Anamnesis) 112
   Lameness Examination 112
   Evaluation of Horses at Work 151
   TERRY D. SWANSON
   Reasons to Evaluate Horses at Work 151
   Procedure to Evaluate Horses at Work 151
   Objective Assessment of Lameness 154
   KEVIN G. KEEGAN
   Measurement of Ground Reaction Forces (Kinetics) 154
   Measurement of Movement (Kinematics) 155
   Kinematics/Kinetics 165
   KEVIN G. KEEGAN
   Kinematics 165
   Kinetics 171
   Perineural and Intrasynovial Anesthesia 173
   GARY M. BAXTER AND TED S. STASHAK
   Types of Local Anesthetics 173
   Skin Preparation and Restraint 173
   Perineural Anesthesia 173
   Intrasynovial Anesthesia 183
   Equine Diagnostic Acupuncture Examination (DAPE) 203
   KEVIN K. HAUSLER AND GARY M. BAXTER
   Trigger Points 203
   How to Perform a DAPE 203
   Detailed Diagnostic Acupuncture Evaluation 203
   How to Interpret a DAPE 204
   When to Perform the DAPE 205
   Validity of Diagnostic Acupuncture 205

4. Diagnostic Procedures 207
   ALEJANDRO VALDÉS-MARTÍNEZ AND RICHARD D. PARK
   Introduction 207
   Equipment 207
   Digital Radiography Systems 212
   Radiation Safety 218
   Technique Charts 219
   Contrast Examinations 221
   Principles of Radiographic Interpretation 225
   Limitations of Radiography 240
   Normal Radiographic Anatomy 241
   Ultrasound 338
   W. RICH REDDING
   Introduction 338
   Science of Ultrasound 338
   Diagnostic Ultrasound to Evaluate Tendons and Ligaments 339
   Limitations of Ultrasonography 354
   Use of Diagnostic Ultrasound to Evaluate Joint Injury 356
   Ultrasonography of Synovial Structures Other than Joints 365
## Table of Contents

### Nuclear Medicine 377

**ALEJANDRO VALDÉS-MARTÍNEZ AND PHILIP F. STEYN**

- Principles of Nuclear Medicine 377
- Radiation Safety and Protection 378
- Imaging Equipment 380
- Method for a Scintigraphic Exam of the Musculoskeletal System 381
- Indications for Nuclear Scintigraphy of the Musculoskeletal System in Horses 386
- Normal Bone Scan 387
- Scintigraphic Signs of Disease 396
- Abnormal Conditions for Specific Anatomical Regions 398
- Limitations of Nuclear Medicine 413

### Magnetic Resonance Imaging 416

**MICHAEL SCHRAMME AND W. RICH REDDING**

- Introduction 416
- General Principles and Physics of MRI 416
- Equipment and Practicalities of MRI of Horses 417
- Indications, Case Selection, Advantages, and Disadvantages of MRI 419
- Sequences and Protocols for Equine MRI 419
- Artifacts of MRI 421
- Interpretation of MR Images 423
- Evaluation of Equine MRI Studies 426
- Specialized MRI Techniques 427
- Magnetic Resonance Imaging of the Foot 427
- Magnetic Resonance Imaging of the Fetlock Region 438
- Magnetic Resonance Imaging of the Metacarpal and Metatarsal Regions 443
- Magnetic Resonance Imaging of the Carpal, Tarsal, and Stifle Regions 446
- Conclusion 448

### Computed Tomography 451

**ANTHONY P. PEASE AND W. RICH REDDING**

- Introduction 451
- Imaging Benefits of CT 451
- Interpretation of CT Images 453
- Contrast-enhanced CT 454
- Indications for CT in Equine Lameness and Surgery 458

### Arthroscopy/Endoscopy/ Bursoscopy 460

**C. WAYNE MCLWRAITH**

- Introduction 460
- The Usefulness of Diagnostic Arthroscopy Relative to Other Diagnostic Methods 460
- Principles of Diagnostic Arthroscopy 460
- Evaluation of Synovial Membrane and Synovitis 460
- Evaluation of Articular Cartilage 462
- The Use of Diagnostic Tenoscopy 462
- The Use of Diagnostic Bursoscopy 465

### Thermography 466

**TRACY A. TURNER**

- Thermographic Instrumentation 466
- Principles of Use 466
- Specific Applications for Lameness Diagnostics 468

## 5. Lameness in the Extremities 475

### The Foot 475

**GARY M. BAXTER AND TED S. STASHAK; JAMES K. BELKNAP AND ANDREW PARKS (LAMINITIS SECTION)**

- Navicular Disease/Syndrome 475
- Fractures of the Navicular (Distal Sesamoid) Bone 491
- Soft Tissue Injuries in the Foot 494
- Osteoarthritis (OA) of the Distal Interphalangeal (DIP) Joint 498
- Fractures of the Distal Phalanx (P3, Coffin Bone) 501
- Pedal Osteitis (PO) 509
- Subchondral Cystic Lesions of the Distal Phalanx (P3) 511
- Ossification of the Collateral Cartilages of the Distal Phalanx (Sidebone) 513
- Quittor (Infection and Necrosis of the Collateral [Ungual Cartilage]) 514
- Sole Bruises, Corns, and Abscesses 516
- Gravel (Ascending Infection of the White Line) 518
- Canker 519
- Thrush 521
- White Line Disease 521
- Penetrating Injuries of the Foot 523
- Sheared Heels and/or Quarters 525
- Keratoma 527
- Avulsion Injuries of the Hoof 530
- Toe Cracks, Quarter Cracks, and Heel Cracks (Sand Cracks) 534
- Laminitis 535

### The Pastern 559

**GARY M. BAXTER AND TED S. STASHAK**

- Osteoarthritis (OA) of the PIP Joint (High Ringbone) 559
- Luxation/Subluxation of the Proximal Interphalangeal (PIP) Joint 568
- Fractures of the Middle (Second) Phalanx (P2) 572
- Fractures of the Proximal (First) Phalanx (P1) 579
- Desmitis of the Distal Sesamoidean Ligaments (DSLs) 588
- SDFT and DDFT Abnormalities 591

### The Fetlock 594

**ALICIA L. BERTONE**

- Osteochondral (Chip) Fractures of the Proximal (First) Phalanx in the Metacarpophalangeal or Metatarsophalangeal (Fetlock) Joint 594
- Fractures of the Proximal Sesamoid Bones 597
- Sesamoiditis 604
- Osteomyelitis of the Axial Border of the Proximal Sesamoid Bones 606
- Traumatic Arthritis/Osteoarthritis of the Metacarpophalangeal (Fetlock) Joint (Ossicles) 607
- Fetlock Subchondral Cystic Lesions (SCS) 609
- Traumatic Rupture of the Suspensory Apparatus 611
- Luxation of the Metacarpal/Metatarsal Phalangeal Joint (Fetlock Luxation) 614
- Constriction of or by the Fetlock Palmar/Plantar Anular Ligament 616
- Digital Flexor Tendon Sheath (DFTS) Tenosynovitis 618
The Metacarpus and Metatarsus 621
ALICIA L. BERTONE

Periostitis and Fracture of the Dorsal Metacarpus (Bucked Shins, Shin Splints, and Stress Fracture) 621
Fractures of the Condyles of the Third Metacarpal/Metatarsal Bones (Condylar Fractures, Longitudinal Articular Fractures) 626
Fractures of the Third Metacarpal/Metatarsal (Cannon) Bone 631
Diaphyseal Angular Limb Deformities of the Third Metacarpal/Metatarsal Bones (Cannon Bone) 636
Metacarpal/Metatarsal Exostosis (Splints) 637
Fractures of the Small Metacarpal and Metatarsal (Splint) Bones 640
Suspensory Ligament Desmitis 644
Superficial Digital Flexor (SDF) Tendinitis (Bowed Tendon) 649
Deep Digital Flexor Tendinitis 655
Desmitis of the Accessory Ligament of the Deep Digital Flexor Tendon (Distal Check Ligament) 656
Tendon Lacerations 657

The Carpus 660
CHRIS KAWCACK

Developmental Abnormalities of the Carpus 660
Miscellaneous Carpal Swellings 668
Dorsal Carpal Swelling 670
Intra-articular Fractures 671
Accessory Carpal Bone Fracture 676
Carpal Luxations 677
Soft Tissue Damage to the Carpus 678
Osteoarthritis 679
Carpometacarpal Osteoarthritis 680
Osteochondrosis of the Carpus 681
Osteochondroma of the Distal Radius 681
Desmitis of the Accessory Ligament of the Distal Check Ligament of the Superficial Digital Flexor Tendon 683

The Antebrachium, Elbow, and Humerus 687
JEREMY HUBERT AND TED S. STASHAK

Fractures of the Radius 687
The Elbow 693
Fractures of the Humerus 701
Paralysis of the Radial Nerve 705

The Shoulder and Scapula 708
JEREMY HUBERT AND TED S. STASHAK

Inflammation of the Intertubercular Bursa (Bicipital Bursitis) 708
Inflammation of the Infraspinatus Bursa 712
Osteochondrosis (OC) of the Scapulohumeral Joint (SHJ) or Shoulder 712
Osteoarthritis (OA) of the Scapulohumeral Joint 715
Luxation of the Scapulohumeral (Shoulder) Joint 717
Suprascapular Nerve Injury (Sweeny) 718
Fractures of the Scapula 721
Fractures of the Supraglenoid Tubercle (Tuberosity) 723

The Tarsus and Tibia 725
KENNETH E. SULLINS

The Tarsus 725
Distal Tarsal Joint Synovitis and Osteoarthritis (OA) (Bone Spavin) 726

Bog Spavin (Idiopathic Synovitis/Tarsocrural Effusion) 738
Osteochondritis Dissecans (OCD) of the Tarsocrural Joint 740
Acquired Bone Cysts of the Tarsus 744
Slab and Sagittal Fractures of the Central and Third Tarsal Bones 745
Intra-articular Fractures of the Tarsocrural Joint 747
Fractures of the Fibular Tarsal Bone (Calcaneus) 749
Osteomyelitis and Osteolytic Lesions of the Calcaneal Tuber 752
Subluxations and Luxations of the Tarsal Joints 753
Talocalcaneal Osteoarthritis (TO) 754
Tarsocrural Collateral Ligament Desmitis/Instability/Rupture 755
Curb 757
Luxation of the Superficial Digital Flexor Tendon (SDFT) from the Calcaneus 757
Medial Displacement of the Deep Digital Flexor Tendon 759
Tarsal Sheath Tenosynovitis (Thoroughpin) 759
Rupture of the Peroneus Tertius 762
Gastrocnemius Tendinitis/Common Calcaneal Tendinitis 763
Rupture or Strain of the Gastrocnemius/Superficial Digital Flexor (SDF) Muscle 764
Capped Hock/Calcaneal Bursitis 765
Stringhalt 767
Shivering 769
The Tibia: Types of Fractures and Immobilization Methods 770
Tibial Tuberosity/Crest Fractures 771
Fractures of the Proximal Tibial Physe 774
Fractures of the Distal Tibial Physe 776
Diaphyseal and Metaphyseal Tibial Fractures 776
Tibial Stress Fractures 780
Enostoses of the Tibia 780
Fracture of the Fibula 781

The Stifle 783
KENNETH E. SULLINS (FEMOROPATELLAR JOINT) AND CHRIS KAWCACK (FEMOROTIBIAL JOINTS)

Femoropatellar Joint 783
Femoropatellar Osteochondritis Dissecans (OCD) 785
Intra-articular Fractures of the Femoropatellar Joint: Fractures of the Femoral Trochlea 789
Intra-articular Fractures of the Femoropatellar Joint: Fracture of the Patella 790
Fragmentation of the Distal Patella 792
Upward Fixation of the Patella (UFP) 793
Desmitis of the Patellar Ligaments 797
Patellar Luxation/Subluxation 798
Synovial Osteochondroma in the Hindlimb 800
Femorotibial Joints 800
Subchondral Cystic Lesions (SCL) of the Stifle 801
Fractures 804
Femoral Condyle Lesions 806
Collateral Ligament Injury 807
Cruciate Ligament Disease 809
Meniscal Injuries 810
Synovitis/Capsulitis/OA 812

The Femur and Coxofemoral Joint 814
KENNETH E. SULLINS (FEMUR) AND GARY M. BAXTER (COXOFEMORAL JOINT)

The Femur 814
Diaphyseal and Metaphyseal Femoral Fractures 814
Fibrotic and Ossifying Myopathy 818
Femoral Nerve Paralysis (Crural Paralysis) 820
Calciosis Circumscripta 821
Trochanteric Bursitis (Trochanteric Lameness, Whirble Lameness) 821
Ruptured Quadriceps Muscle 823
The Coxofemoral Joint 823
Osteochondrosis (OCD)/Hip Dysplasia of the Coxofemoral Joint 823
Infectious Arthritis/Physitis of the Coxofemoral Joint 825
Partial Tear/Rupture of the Ligament of the Head of the Femur (Round Ligament) 826
Coxofemoral Luxation (Dislocation of the Hip Joint) 827
Osteoarthritis (OA) of the Coxofemoral Joint 829
Capital Physeal Fractures of the Femoral Head 830
Intra-articular Acetabular Fractures 830

6. Lameness Associated with the Axial Skeleton 833

The Axial Skeleton 833
Anatomy and Biomechanics of the Vertebral Column 833
Primary vs. Secondary Back Pain 837

The Pelvis 840
Fractures of the Pelvis 840
Specific Types of Pelvic Fractures 841
Thrombosis of the Caudal Aorta or the Iliac Arteries 845

Diseases of the Sacroiliac Region 847
Etiology 848
Clinical Signs 848
Diagnosis 849
Treatment 852
Prognosis 853

The Thoracolumbar Spine 854
Overriding/Impingement of Dorsal Spinous Processes 854
Supraspinous Ligament Injuries 855
Fractures of the Spinous Processes 856
Vertebral Fractures 857
Facet Joint Arthritis and Vertebral Facet Joint Syndrome 858
Discospondylitis 862
Spondylolisthesis 863
Scoliosis, Kyphosis, and Lordosis 864

The Neck and Poll 866
Nuchal Ligament 866
Cervical Facet Joints 867
Discospondylitis 869
Cervical Fractures 869

7. Principles of Musculoskeletal Disease 871

Joint Injuries and Disease and Osteoarthritis 871
C. WAYNE MCILWRAITH
Anatomy and Physiology of Joints 871
### Table of Contents

**Intralesional** 971  
**Oral/Nutritional** 975  
**Therapeutic Trimming and Shoeing** 986  
**Surgical** 996  
**Acupuncture Treatment of Lameness and Back Pain** 1009  
**Manual Therapy Techniques** 1013  
**Rehabilitation/Physical Therapy** 1017  

**Introduction** 1017  
Clinical and Client Demand for Rehabilitation/PT 1018  
Manual Therapy 1018  
Electro-physical Agents: Treatment Modalities 1023  
Motor Control: Exercise-based Treatment Techniques 1023  
Conclusion 1025  

9. Occupation-related Lameness Conditions 1029  

The Thoroughbred Racehorse 1029  
**ROBERT J. HUNT AND FOSTER NORTHROP**  
Risk Factors for Injury 1029  
Diagnosis of Lameness 1030  
Common Conditions 1031  

The Standardbred Racehorse 1039  
**KIMBERLY JOHNSTON AND FRANK A. NICKELS**  
Description of the Sport 1039  
Lameness Exam 1039  
Specific Lameness Conditions 1041  

The Racing Quarter Horse 1047  
**NANCY L. GOODMAN**  
Introduction 1047  
Conformation Relating to Lameness 1047  
Training the Racing Quarter Horse 1048  
Shoeing 1048  
Lameness Related To Track Surface 1048  
Lameness Examination 1049  
Specific Lameness Conditions 1050  

The Endurance Horse 1055  
**TODD C. HOLBROOK**  
The Sport 1055  
Athletes and Exercise Conditions 1055  
Veterinary Control 1055  
The Lameness Examination 1057  
Common Causes of Lameness 1057  

Show/Pleasure Horses 1062  
**ELLIS G. FARSTVEDT**  
Pleasure Horse/Show Horse Sport 1062  
Musculoskeletal Problems in the Forelimb 1062  
Musculoskeletal Problems of the Hindlimb 1063  
Musculoskeletal Problems of the Axial Skeleton 1064  
General Treatment Recommendations 1064  

The Western Performance Horse 1066  
**ROBIN M. DABAREINER**  
Introduction and Horses Used for These Disciplines 1072  
Structure of Training and Competition 1073  

---

**Polyglycan** 967  
Autologous Conditioned Serum (ACS) 967  
Bone- or Fat-derived Mesenchymal Stem Cell Therapy 967  
Miscellaneous 968  
Intrasynovial Therapy: Practical Considerations 968  

**Hyaluronan (HA)** 971  
Polysulfated Glycosaminoglycans (PSGAG) 971  
Mesenchymal Stem Cell Therapy 972  
Platelet-rich Plasma (PRP) 972  
Autologous Conditioned Serum (IRAP) 973  
Insulin-like Growth Factor-I (IGF-I) 973  
Acellular Urinary Bladder Matrix (ACELL) 973  
Corticosteroids 973  
Miscellaneous 973  

**Intralesional** 971  
**Oral/Nutritional** 975  
**Therapeutic Trimming and Shoeing** 986  
**Surgical** 996  
**Acupuncture Treatment of Lameness and Back Pain** 1009  
**Manual Therapy Techniques** 1013  
**Rehabilitation/Physical Therapy** 1017
Table of Contents

Training Surfaces and Shoeing 1075
Lameness Diagnosis 1076
Common Lameness Problems 1077
Diagnosis and Management of Most Common Lameness Complaints 1077

The Draft Horse 1084
JAN F. HAWKINS
Introduction 1084
Anamnesis 1084
Lameness Examination 1084
Common Causes of Lameness 1084
Diseases of Young Draft Horses 1089

10. Miscellaneous Musculoskeletal Conditions 1091
Guidelines for Prepurchase Examination 1091
TERRY D. SWANSON
Purpose of the Exam 1091
Before the Exam 1091
Physical Exam 1092
Other Diagnostic Procedures 1093
Reporting the Results of the Exam 1093

The Poorly Performing Horse 1095
ROBIN M. DABAREINER
Introduction 1095
History and Signalment 1095
Complaints of Poor Performance 1095
Non-musculoskeletal Causes of Poor Performance 1097

Headshaking and Bit-related Problems 1098
DWIGHT G. BENNETT
Etiology 1098
Clinical Signs 1099
Diagnosis 1100
Treatment and Prevention 1100
Prognosis 1102

Stance and Gait Abnormalities Caused by Neurological Disease 1104
LUTZ S. GOEHRING
Prevalence of Neurological Disease in Horses 1104
Neurological Gait 1104
Expected Findings from a Neurological Exam 1105
Pitfalls of Neurological Examination 1106
Neurological Syndromes Affecting the Gait 1107

Evaluation of Proper Saddle Fit 1109
KEVIN K. HAUSSSLER
Introduction 1109
Clinical Signs of Poor Saddle Fit 1109
Saddle Examination 1109
Static Examination of Saddle Fit 1109
Static Examination of Saddle Pads 1111
Dynamic Examination of Saddle Fit 1111

Prevention and Treatment of Musculoskeletal Infections 1113
JEREMY HUBERT

Prevention of Orthopedic Infections 1113
Treatment of Septic Conditions 1115
Specific Treatment Strategies 1116

11. Lameness in the Young Horse 1123

The Physis/Physeal Fractures 1123
GARY M. BAXTER
The Physis 1123
Classification of Physeal Injuries/Fractures 1126
Developmental Orthopedic Diseases 1129

Epiphysitis/Physitis/Physal Dysplasia 1132
GARY M. BAXTER
Etiology 1132
Clinical Signs 1132
Diagnosis 1132
Treatment 1133
Prognosis 1134

Incomplete Cuboidal Bone Ossification/Juvenile Spavin 1135
GARY M. BAXTER
Etiology 1135
Clinical Signs 1135
Diagnosis 1135
Treatment 1135
Prognosis 1137

Angular Limb Deformities (ALDs) 1138
GARY M. BAXTER
Etiology 1138
Clinical Signs 1138
Diagnosis 1140
Treatment 1140
Prognosis 1144

Flexural Deformities 1145
GARY M. BAXTER
Congenital Flexural Deformities 1145
Acquired Flexural Deformities 1147

Osteochondrosis 1155
C. WAYNE MCLWRAITH
Introduction 1155
Osteochondritis Dissecans (OCD) 1155
Subchondral Cystic Lesions 1163

Lameness in Foals 1165
ROBERT J. HUNT
Signalment 1165
Noninfectious Causes of Lameness 1165
Infectious Causes of Lameness 1171

Cervical Stenotic Myelopathy (Wobbler Syndrome) 1174
BONNIE R. RUSH
Signalment 1174
Clinical Signs 1174
Etiology 1174
Diagnosis 1175
Treatment and Prognosis 1177
12. Foot Care and Farriery 1179

**Basic Foot Care** 1179

*Stephen E. O’Grady*

- Introduction 1179
- Evaluation of the Foot 1179

**Principles of Trimming and Shoeing** 1183

*Stephen E. O’Grady*

- Guidelines for Trimming 1183
- Trimming the Foot 1186
- Trimming the Barefoot Horse 1188
- The Horseshoe 1189
- Placement and Application of the Shoe 1195
- Non-nail Alternatives in Farriery 1197

**Farriery for Common Hoof Problems** 1199

*Stephen E. O’Grady*

DVD included featuring additional anatomical images and video clips demonstrating key procedures and examples of conditions in motion.
